MANAGEMENT COMPANY: CORUM Butler Asset Management Limited, authorised by the Central Bank as a UCITS management company under the UCITS Regulations.

AUTHORISED IN: This PRIIP is authorised in Ireland

ISSUED ON: 12/03/2026

WHAT IS THIS PRODUCT?

Type: CORUM Butler European High Yield Fund (the "Fund") is a sub-fund of CORUM Butler Credit Strategies ICAV, an umbrella open-ended collective asset-management vehicle with segregated liability between Funds formed in Ireland under the Irish Collective Asset-management Vehicles Act 2015 and authorised by the Central Bank of Ireland as an undertaking for collective investment in transferable securities pursuant to the European Communities (Undertakings for Collective Investment in Transferable Securities) Regulations 2011, as amended. Segregated liability between Funds means that the assets and liabilities of each Fund are segregated by law. The prospectus and periodic reports are prepared for CORUM Butler Credit Strategies ICAV at the umbrella level. You may switch your shares in the Fund to shares in other Funds in which you are eligible to invest. Further information is available from Northern Trust International Fund Administration Services (Ireland) Limited (the administrator of the Fund).

Objectives: The investment objective of the Fund is to seek to achieve a positive long-term rate of return from investment in fixed income securities. The Fund will primarily invest in European high yield fixed income securities issued by corporate entities. The Fund may also invest in fixed income securities issued by government entities. Fixed income securities are debt instruments (such as bonds) which provide investors with a fixed return, typically consisting of the repayment of their initial investment plus an amount of interest, but other forms of repayment or return are possible. High yield securities (also known as sub-investment grade securities) generally have lower credit ratings, but pay higher rates of interest than investment grade securities which have higher credit ratings but which conversely tend to pay less interest.

The Fund can invest in both investment grade and high yield securities, but it may have 100% of its investment in high yield securities at times. Also, while focused on Europe, and investment in the emerging markets of Europe are typically not expected to exceed 15% of the Fund, within this, the Fund will not be restricted to issuers in any industry or sector.

The Fund may invest indirectly in the fixed income markets through derivatives instead of investing directly in individual securities. The Fund may also invest indirectly in financial indices, including major credit and equity indices, for hedging purposes. A derivative is a contract between two or more parties whose value is based on an agreed-upon underlying financial asset, index or security. The derivatives used by the Fund may include swaps, options, futures and credit default swaps. Forward foreign exchange contracts may also be used for hedging against the risk of changes in currency exchange rates.

The Fund may take short positions in its investments for hedging purposes. This means the Fund will make a profit if the value of the investment goes down, but it will lose money if the value of the investment goes up. Unless the loss is capped or offset by another investment, it could theoretically be unlimited. The Fund will typically have up to 150% of its net asset value in long positions and 50% in short positions.

The Fund may invest in open-ended and closed-ended collective investment schemes and open-ended exchange traded funds which enable the Fund to achieve its investment objective. The Fund may also invest in cash and money market instruments for cash management purposes.

The Fund is actively managed, meaning the investment manager actively selects the securities in which the Fund invests with the aim of meeting its investment objective. The Fund does not track and is not managed by reference to any particular Benchmark.

The investment policy of the Fund may involve a high level of trading and turnover of the investments of the Fund which may generate substantial transaction costs which will be borne by the Fund. These costs will be in addition to the charges set out in the "What are the costs?" section of this document.

The Fund seeks to promote environmental, social and governance ("ESG") characteristics and as such discloses in accordance with Article 8 of the Sustainable Finance Disclosure Regulation. The Fund does not have a sustainable investment objective. The Investment Manager takes ESG considerations into account as part of its investment decision making process and such considerations are implemented on a continuous basis as part of this process. Further detail on these considerations and the process is set out in the Supplement.

The shares are denominated in Swiss Franc (CHF) and are hedged. The base currency of the Fund is EUR. The Fund will enter into currency hedging in relation to this share class which aims to protect investors from movements in the CHF exchange rate in relation to the Fund's assets denominated in currencies other than CHF.

No income will be paid on your shares. You may sell your shares in the Fund on any business day. A business day is a day that banks are open in Ireland and the United Kingdom. You must submit your application to the Fund's administrator before 1.00 p.m. (Irish Time) on the day on which you want to sell.

Intended Retail Investors: This Fund is suitable for investors seeking to achieve a return on their investment in the medium to long term. The investor should be prepared to bear losses.

Term: The Fund has no maturity date. The Management Company is entitled to terminate the Fund unilaterally.

The depositary of the Fund is Northern Trust Fiduciary Services (Ireland) Limited. Copies of the prospectus, the supplement of the Fund, the latest annual and half-yearly reports and application forms may be obtained in English/other languages free of charge from the registered office of the Fund by contacting the Administrator, Northern Trust International Fund Administration Services (Ireland) Limited, at , Georges Court, 54-62 Townsend Street, Dublin 2 or CORUM Butler Asset Management Limited, 2-4 Ely Place – Dublin 2, Ireland or via <https://www.corumbutler.com>.

Further information on the latest share price as well as further practical information on the Fund is available at the registered office of the Fund and on <https://www.corumbutler.com> and www.bloomberg.com.

WHAT ARE THE RISKS AND WHAT COULD I GET IN RETURN?**RISK INDICATOR**

The summary risk indicator (SRI) is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you.

Lower Risk

Higher Risk

1	2	3	4	5	6	7
---	---	---	---	---	---	---

The risk indicator assumes you keep the product for 5 years. The actual risk can vary significantly if you cash in at an early stage and you may get back less. You may not be able to cash in early. You may not be able to sell your product easily or you may have to sell at a price that significantly impacts on how much you get back

We have classified this product as 2 out of 7, which is a low risk class. This rates the potential losses from future performance at a low level, and poor market conditions are very unlikely to impact our capacity to pay you.

Be aware of currency risk. In some circumstances, you may receive payments in a different currency, so the final return you will get may depend on the exchange rate between the two currencies. This risk is not considered in the indicator.

The Fund is subject to the following Risk Factors (without limitation):

- Counterparty Risk
- Credit Risk
- Derivatives Risk
- Leverage Risk
- Liquidity Risk
- Operational Risk

This product does not include any protection from future market performance so you could lose some or all of your investment.

PERFORMANCE SCENARIOS

What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the product over the last 10 years. Markets could develop very differently in the future.

The stress scenario shows what you might get back in extreme market circumstances.

Recommended Holding Period: 5 years		1 year	5 years (Recommended Holding period)
Investment 10,000 CHF			
Scenarios			
Minimum	There is no minimum guaranteed return. You could lose some or all of your investment.		
Stress	What you might get back after costs	8,460 CHF	7,660 CHF
	Average return each year	-15.40%	-5.19%
Unfavourable	What you might get back after costs	8,460 CHF	9,480 CHF
	Average return each year	-15.40%	-1.06%
Moderate	What you might get back after costs	9,840 CHF	10,970 CHF
	Average return each year	-1.60%	1.87%
Favourable	What you might get back after costs	11,460 CHF	12,520 CHF
	Average return each year	14.60%	4.60%

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back.

Unfavourable: This type of scenario occurred for an investment between 30/09/2017 and 30/09/2022

Moderate: This type of scenario occurred for an investment between 31/12/2019 and 31/12/2024

Favourable: This type of scenario occurred for an investment between 31/03/2020 and 31/03/2025

WHAT HAPPENS IF CORUM BUTLER IS UNABLE TO PAY OUT?

Although the assets of the Fund are held in safekeeping and segregated from the Management Company's own assets and from the Depository's own assets, in the event of the insolvency of either of those providers, you may suffer a financial loss. There is no compensation or guarantee scheme in place which may offset, all or any of, this loss.

WHAT ARE THE COSTS?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

COSTS OVER TIME

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product and how well the product performs. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- In the first year you would get back the amount that you invested (0% annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario.

- CHF 10,000 is invested.

Investment 10,000 CHF Scenarios	If you exit after 1 year	If you exit after 5 years
Total Costs Annual Cost Impact (*)	672 CHF 6.7%	1,663 CHF 2.9% each year

(*) This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 4.79% before costs and 1.87% after costs.

We may share part of the costs with the person selling you the product to cover the services they provide to you. They will inform you of the amount.

COMPOSITION OF COSTS

		If you exit after 1 year
One-Off Costs upon entry or exit		
Entry Costs	Up to 5.00% of the amount you pay in when entering this investment.	500 CHF
Exit Costs	We do not charge an exit fee for this product.	0 CHF
Ongoing costs taken each year		
Management fees and other administrative or operating costs	1.49% of the value of your investment per year. This is an estimate based on actual costs over the last year.	142 CHF
Transaction costs	0.30% of the value of your investment per year. This is an estimate of the costs incurred when we buy and sell the underlying investments for the product. The actual amount will vary depending on how much we buy and sell.	28 CHF
Incidental costs taken under specific conditions		
Performance fees	15% of the annualised outperformance of the hurdle rate which is the Markit-iBoxx EUR Liquid High Yield Index (IBOXXMJA). The actual amount will vary depending on how well your investment performs. The estimated performance fee for this share class is 0.02%. The aggregated cost estimation across includes the average over the last 5 years.	2 CHF

HOW LONG SHOULD I HOLD IT AND CAN I TAKE MONEY OUT EARLY?

Recommended holding period: 5 years.

The Fund is designed to deliver capital appreciation over a medium to long-term investment horizon with a low level of risk.

You can redeem your shares on a daily basis with no penalty.

HOW CAN I COMPLAIN?

Complaints concerning the operation or marketing of the Fund may be referred by email to cbam-complaints@corum-am.com, by telephone to +353 1 544 3838 or by post to either Northern Trust International Fund Administration Services (Ireland) Limited, Georges Court, 54–62 Townsend Street, Dublin 2 or CORUM Butler Asset Management Limited, 2-4 Ely Place – Dublin 2, Ireland.
