WHAT IS THIS PRODUCT?

Type: GAMCO Convertible Securities (the "Fund") is a sub-fund of GAMCO International SICAV an investment company organised as a société anonyme under the laws of the Grand- Duchy of Luxembourg with registered number B155657 and qualifies as a société d'investissement à capital variable (SICAV) subject to Part I of the Law of 17 December 2010 on undertakings for collective investment. The assets and liabilities of each sub-fund are segregated from those of other sub- funds; there is no cross-liability, and a creditor of one fund has no recourse to the other sub-funds. The prospectus and periodic reports are prepared for GAMCO International SICAV at umbrella level. You may switch your shares in the Fund to shares of the same class in other sub-funds in which you are eligible to invest. Further information is available from CACEIS BANK, Luxembourg (the "Administrator").

Objective: The Fund seeks to provide a high level of current income as well as long term capital appreciation by investing in a diversified portfolio of convertible securities.

Investment policy and strategy: The Fund aims to achieve this objective by investing in convertible securities as well as derivatives, and other financial instruments that have similar economic characteristics. Convertible securities may include convertible instruments such as convertible bonds, convertible notes or convertible preference shares. The fund will invest no less than 2/3 of its net asset value in such securities. The fund may invest in insecurities of any market capitalization or credit quality and may invest a significant amount of its assets in securities of smaller companies. The Fund may invest in securities of any market capitalization or credit quality, including up to 100% in below investment grade or unrated securities, and may from time to time invest a significant amount of its assets in securities of smaller companies. In addition to convertibles securities, the fund may also invest in non-convertible debt securities rated below investment grade (rated Ba or below by Moody's, or BB or below by S&P or Fitch, or if unrated, determined by the investment manager to be of comparable quality). The Fund may also be invested up to 20% in cash and cash equivalents including money market instruments. For indication purposes, it is expected that average rating of the portfolio shall be the equivalent of no less than BB-, based on a combination of external ratings and securities of comparable.

The Fund is actively managed without reference to a benchmark.

Hedging: This share class will not enter into currency hedging.

The Fund may use derivatives for reducing risks (hedging), as an alternative to direct investment when direct investment is not possible or for efficient portfolio management. The Fund's expected use of total return swaps ("TRS") and securities lending is expected to be 0% of net assets but may be up to 5% of net assets. Leverage will not be employed by the Fund.

This share class is an accumulating share class. Accumulation shares retain all net investment income in the share price and do not intend to distribute any dividends.

You may request redemption of your shares on any day which is a full banking day in both New York City and Luxembourg City and are ordinarily processed the following business day.

Intended Retail Investors: This Fund is suitable for all investors who understand the risks of the Fund, plan to invest for the medium to long term, and

are looking for investment growth and are interested in an investment that provides current income.

Term: The Fund has no maturity date. The Management Company is not entitled to terminate the Fund unilaterally nor can the Fund be automatically terminated.

Depositary of the Fund: CACEIS BANK, Luxembourg

WHAT ARE THE RISKS AND WHAT COULD I GET IN RETURN?

RISK INDICATOR

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you.

Typically lower rewards

Typically higher rewards

The risk indicator assumes you keep the product for 5 years. The actual risk can vary significantly if you cash in at an early stage and you may get back less. You may not be able to cash in early. You may not be able to sell your product easily or you may have to sell at a price that significantly impacts on how much you get back.

We have classified this product as 4 out of 7, which is a medium risk class. This rates the potential losses from future performance at a

medium level, and poor market conditions could impact our capacity to pay you.

Be aware of currency risk. In some circumstances, you may receive payments in a different currency, so the final return you will get may depend on the exchange rate between the two currencies. This risk is not considered in the indicator.

The Fund is subject to the following Risk Factors relating to (without limitation):

- · Currency Risk
- Hedging Risk
- Derivative and leverage Risk
- Convertible Securities Risk
- Credit and Counterparty Risk

This product does not include any protection from future market performance so you could lose some or all of your investment.

WHAT HAPPENS IF WAYSTONE MANAGEMENT COMPANY (LUX) S.A. IS UNABLE TO PAY OUT?

Although the assets of the Fund are held in safekeeping and segregated from the own assets of the Management Company or of the Depositary, in the event of the insolvency of either of those providers, you may suffer a financial loss. There is no compensation or guarantee scheme in place which may offset, all or any of, this loss.

WHAT ARE THE COSTS?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

COSTS OVER TIME

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product and how well the product performs. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- In the first year you would get back the amount that you invested (0% annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario.
- EUR 10,000 is invested.

INVESTMENT 10,000 EUR	IF YOU EXIT AFTER	IF YOU EXIT AFTER
SCENARIOS	1 YEAR	5 YEARS
Total Costs Annual Cost Impact (*)	279 EUR 2.79%	1,319 EUR 2.79% each year

(*) This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 0.00% before costs and -2.79% after costs.

We may share part of the costs with the person selling you the product to cover the services they provide to you. They will inform you of the amount.
